

### THE SELF-RETRACTING LIFELINE WITH RESCUE WINCH.

The MightEvac delivers the superior performance and reliability of the MightyLite lifeline series. It has a quick-activating retrieval mechanism for emergency evacuation.

#### FEATURES AND BENEFITS:

##### Features:

Fall arrest block with retrieval winch. Used with the Miller tripod to form a stable and secure confined entry access/rescue system. Fall indicator. Equipped with a screwgate carabiner. Supplied without brackets.

##### Benefits:

Pressed steel housing and a compact design for exceptional performance. Easy to use with a rescue winch (up/down).

### TECHNICAL DATA

#### Housing and Mecanism

Raw materiel	External: Aluminium alloy Internal: Stainless steel
Cable	4.8mm Gavanized wire cable

#### Automatic Swivel Snap Hook

Raw materiel	Chromate steel
Opening	21 mm
Breaking strength	> 2000 daN
Approval	EN 362

#### Karabiner

Raw materiel	Zinc plated steel
Opening	17 mm
Breaking strength	> 2500 daN
Approval	EN 362

#### Others data

Breaking strength	> 12kN
Braking force	< 6kN
Stopping distance	< 2m
Maximum load	136 kg - Speed Ratio 4/1
Operating temperature	-30°C to +50°C
Approval	MightEvac : EN3602002, ENI4962006 Connector: EN795
