

## THE ALCOTEST® PROVIDES A QUICK, RELIABLE AND HYGIENIC ALCOHOL TEST.

The Dräger Alcotest® for professional use is equipped with an electrochemical sensor and a fuel cell.

It allows the professional user to measure the alcohol content in the breath quickly and accurately. The technology of this portable, compact and easy-to-use instrument is widely approved.

Depending on the model, the calibration frequency and storage capacity are different:

### ALCOTEST® 5000

Calibration every 24 months.  
Possibility to store up to 500 tests.

### ALCOTEST® 6000

Calibration every 6 months.  
Possibility to store up to 500 tests.

### ALCOTEST® 7000

Calibration every 12 months.  
Possibility to store up to 30 000 tests.

Depending on the model, the results will be displayed differently:

ALCOTEST® 5000: Display only the presence or absence of alcohol

ALCOTEST® 6000: Alcohol concentration display

ALCOTEST® 7000: Affichage of the presence or absence of alcohol & the rate

## TECHNICAL CHARACTERISTICS:

### Dimensions:

#### ALCOTEST® 5000:

Approx. 63 x 219 x 41 mm

#### ALCOTEST® 6000:

Approx. 50/60 x 141 x 31 mm

#### ALCOTEST® 7000:

61 mm x 172 mm x 36 mm

### Weight:

**ALCOTEST® 5000:** 245 g including batteries and cone

**ALCOTEST® 6000:** approx. 150 g, with battery

**ALCOTEST® 7000:** approx. 275 g

**Protection class:** IP 54

### Homologation:

**ALCOTEST® 5000:** CE Marking

**ALCOTEST® 6000:** CE Marking

**ALCOTEST® 7000:** Electromagnetic compatibility  
Complies with DIN EN 15964,  
NHTSA, FDA, depending on the configuration.

### BENEFITS:

- Ready to use in seconds. So, you can perform a test on a subject at any time.
- Versatile and robust: fast response time and long life. The analysis is reliable, whether at -5°C or 50°C.
- Easy to use: a blood alcohol test requires a lot of concentration and attention. The intuitive operation of this device guarantees the smooth running of the tests.
- Hygiene made easy: The design of the Alcotest® makes it possible to perform a blood alcohol test quickly and hygienically. The disposable tip is easily attached. Once the tip is replaced, the Alcotest® can be used again immediately.

### ACCESSORIES:

#### Alcotest® 5000 Cone

Packaging: 10 units; hygienic individual packaging individual, hygienic packaging and air inlet designed to minimize the rise of exhaled air.

#### Alcotest® 5000 Calibration Adapter

Calibration connection for setting and monitoring the Alcotest® 5000 with an alcohol simulation device.

#### Mouthpieces (Slide'n'click)

For Alcotest® 6000 and 7000.  
Available in batches of 100, 250 and 1000 units, with or without non-return valve.

#### Alcotest® 6000 protective case

The case offers additional protection.  
The device can be used in the case because the screen is visible at all times.
