

THE SAFEST, MOST ROBUST SELF-RETRACTING LIFELINE ON THE MARKET.

The safest, most robust and comprehensive range of composite fall arrest self-retracting lifeline blocks on the market. Self-retracting lifeline with a 6.2m to 20m cable.

FEATURES AND BENEFITS:

Features: easy to adjust

- Quick-activating braking mechanism
- High visibility fall indicator
- Screwgate carabiner
- Dual swivels in stainless steel (at the top and on the snap lock carabiner)
- Internal components made of corrosion-resistant aluminium and stainless steel
- Shock-resistant nylon housing
- Thermoformed, ergonomic handle (15m and 20m models)
- Unique side payout design reduces wear on the entry guide and cable

Benefits: enhanced service life

- Rounded edges increase cable service life
- Arrests the fall within centimetres, allowing for a quick and safe rescue
- Robust and lightweight composite model
- Easy to install
- Tested and approved for horizontal applications*
- Lifetime warranty for housing**

* When used with the appropriate equipment recommended by the manufacturer.

** When used under normal working conditions.
