

THE COMFORTABLE AND ERGONOMIC TOP-OF-THE-RANGE HARNESS THAT PROVIDES EXCEPTIONAL FREEDOM OF MOVEMENT.

FEATURES AND BENEFITS:

Features:

- **Weight:** from 0.96 to 1.12kg depending on the model
- **Breaking strength:** > 15kN
- **Temperature:** -30°C to +50°C
- **Harness:** EN 361

COMFORT AND FREEDOM OF MOVEMENT

- Ergonomically placed webbing: exclusive H-shaped design with large openings on each side for enhanced freedom of movement and increased comfort
- Horizontal leg straps prevent friction on the legs and in the groin area
- Stretch webbing at the shoulders provides even greater mobility (Miller H-Design, Duraflex version) by hugging the shape of the body and offering ease of movement

QUICK AND EASY TO ADJUST AND CONNECT

- Buckles are easy to connect and adjust
- Adjustable chest strap ensures a perfect fit in height and width

GREATER SAFETY AND IMPROVED TRACEABILITY

- Unique patented chest ring to adjust the chest strap and enable automatic centring in case of a fall
- Highly visible green stitching and webbing as well as front and back fall indicators to facilitate visual inspection before beginning work

Thanks to its innovative and ergonomic architecture, the Miller H-Design offers exceptional comfort. He provide to the users a feeling of freedom and allows them to work at height in complete safety.
