

## A LARGE SELECTION OF ENERGY-ABSORBING FALL-PROTECTION LANYARDS

### ENERGY-ABSORBING LANYARDS FOR SHARP EDGES

#### FEATURES AND BENEFITS:

##### Features:

- Edge-tested products (compliant with VG11 PPE 11.074)
- High-quality kernmantel rope
- Highly visible rope (light green)
- Multicolour stitching
- Wide range of products

##### Benefits: edge-tested fall protection lanyards

- Safe work on edges
- Abrasion-resistant
- Easy to identify from a distance
- Simplified pre-use safety check
- Whatever your profession, you'll find a lanyard that meets your requirements: many different rope lengths and connectors are available.

**SINGLE RESTRAINT LANYARDS**

**TWIN RESTRAINT LANYARDS**

### ALUMINIUM SNAP HOOKS AND KARABINERS

**TYPE D**  
Trilock karabiners

**TYPE E**  
Automatic karabiner

**TYPE F**  
1/4 turn Zircal karabiner

**TYPE G**  
ML041/GO65 scaffold hook

**TYPE H**  
GO60 scaffold hook

**TYPE I**  
GO100 scaffold hook

### STAINLESS STEEL SNAP HOOKS AND KARABINERS

**TYPE A**  
CS20 Screw gate karabiners

**TYPE B**  
CS20 1/4 turn screw gate karabiners

**TYPE C**  
CO55 Scaffold hook

TWIN RESTRAINT LANYARDS

## EDGE-TESTED STRETCHABLE ENERGY-ABSORBING LANYARDS

### FEATURES AND BENEFITS:

#### Features:

- Edge-tested products (compliant with VG11 PPE 11.074)
- High-quality kernmantel rope
- Highly visible rope (light green)
- Multicolour stitching
- Wide range of products
- Patented core-yarn technology
- Identifiable green tubular webbing with a black stripe or a black energy absorber
- Wrapped core-yarn combining two types of thread: one energy-absorbent and one abrasion-resistant

#### Benefits: edge-tested fall protection lanyards

- Safe work on edges
- Abrasion-resistant
- Easy to identify from a distance
- Simplified pre-use safety check
- Whatever your profession, you'll find a lanyard that meets your requirements: many different lanyard lengths and connectors are available
- Mechanical properties resistant against cutting and shearing

## STRETCHABLE ENERGY-ABSORBING LANYARDS

### FEATURES AND BENEFITS:

#### Features: improved safety and reliability

- The stretchable external finish acts as a protective jacket
- Polyamide webbing
- Unique woven core with energy absorber
- The unique fall indicator clearly shows whether a fall has previously occurred
- The red core becomes visible if the outer jacket is damaged or worn, and therefore unfit for use
- The high-tech finish of the external jacket extends the service life of the Manyard® lanyard
- Delivered with a scaffold hook that can be connected to the harness to hold the Manyard® in place when not in use, reducing the risk of tripping

#### Benefits: reduces fall arrest forces

- Unique elasticity, delivering real freedom of movement, for optimum safety
- When contracted, the lanyard significantly reduces the risk of tripping, tearing or snagging
- Reliable visual inspection
- Increase service lifetime

Lenght	Twin	Harness connectors	Anchorage connector
▶ 2 m		CS20 Aluminium/ Stainless steel screw gate karabiner	Aluminum large opening 65 mm scaffold hook
